

A mathematical puzzle card with a blue background and a green triangle in the bottom right corner. In the top left, there is a white star. The main content consists of three boxes in a row: a green hand with the number 3, a green hand with a plus sign, and a green foot with the number 6. Below these is an equals sign followed by a green foot with a question mark. A large white plus sign is in the bottom right corner.

A mathematical puzzle card with a blue background and a green triangle in the bottom right corner. In the top left, there is a white star. The main content consists of three boxes in a row: a green hand with the number 5, a green hand with a plus sign, and a green foot with the number 3. Below these is an equals sign followed by a green foot with a question mark. A large white plus sign is in the bottom right corner.

BEWEG & LEER  LEARNING BY MOVING

BEWEGEN UND LERNEN  APPRENDRE EN JOUANT

A mathematical puzzle card with a blue background and a purple triangle in the bottom right corner. It features a sequence of three boxes connected by lines: a hand with the number 12, a hand with a colon (:), and a footprint with the number 4. Below this sequence is an equals sign (=) followed by a footprint with a question mark (?). A white star is in the bottom left corner, and two white dots are in the purple triangle.

A mathematical puzzle card with a blue background and a purple triangle in the bottom right corner. It features a sequence of three boxes connected by lines: a hand with the number 30, a hand with a colon (:), and a footprint with the number 10. Below this sequence is an equals sign (=) followed by a footprint with a question mark (?). A white star is in the bottom left corner, and two white dots are in the purple triangle.
